A LITTLE BIT ABOUT US

Our company was founded in 2015 by Ranga Zulu, who have been in this field since 2005 and saw a need in the market for a company that could provide high-quality development and design services under one roof.

At Marketing Balloon, we take pride in our ability to understand our clients' unique needs and develop tailored solutions that exceed their expectations. Whether it's a custom web application, a mobile app, or a branding project, we work closely with our clients to ensure that the final product aligns with their vision and goals.

We are committed to delivering exceptional results on time and within budget, and we strive to establish long-term relationships with our clients based on trust and mutual respect.
